# WORK EXPERIENCE

## Front-End Developer (Freelance)

[Upwork](#), [Kwork](#), Direct Clients | 2023–2026

- Developed responsive front-end applications using React, Next.js, and TypeScript
- Built landing pages and user interfaces with a focus on usability and performance
- Performed DOM-based web scraping and data extraction
- Fixed bugs and optimized application performance
- Developed interactive image-based tools involving complex algorithmic logic

---

## Front-End Developer (Middle)

[Linkorium.com](#) (Startup) | 2024–2025

- Built and maintained responsive front-end interfaces using modern JavaScript frameworks
- Developed landing pages, admin dashboards, and a browser extension
- Improved performance, usability, and cross-browser compatibility
- Collaborated closely with product and backend teams

---

## Full-Stack Developer / CTO

[Lingo-tool.com](#) (Startup) | 2025–2026

- Designed and developed a full-stack language learning platform from scratch
- Defined system architecture and implemented front-end and back-end solutions
- Integrated AI services, authentication, and payment systems
- Managed deployment and production infrastructure
- Product is live at lingo-tool.com and published on Google Play

---

# EDUCATION

TECHNOSCHOOL “MUNK” | 2022–2023

Web Development — HTML, CSS, JavaScript, Bootstrap

Brainy Coding | 2023

Front-End Development — React, Redux

Full Learning | 2023–2024

Front-End Development — React, Redux, TailwindCSS

Self-Education | 2022–Present

Official documentation, YouTube, Google, ChatGPT

Full-Stack Development, Databases, AI, Mobile

---
